EDUCATION

University of Virginia, Charlottesville, VA

B.S. Computer Science

August 2022 - May 2026

- Relevant Coursework: Discrete Mathematics; Science, Technology, and Society; Software Development Essentials; Computer Systems and Organizations; Data Structures and Algorithms; Intro to Cybersecurity; Human-Centered Computing for Digital Well-Being; Human-Computer Interaction in Software Development, Software Engineering

SKILLS

- Java, Python, SQL, C#, HTML, CSS, JavaScript, Canva, Google Suite, Figma, React Native, Expo

WORK EXPERIENCE

University of Virginia School of Engineering & Applied Science Communications Office, Charlottesville, VA

Communications Assistant (Work-Study)

January 2025 - Present

Computer Science Intern

May 2025 - August 2025

- Wrote Python script that parsed faculty/event data cutting down collection time by 70%
- Audited & fixed 70+ broken links, boosting site E-A-T scores
- Support event logistics, including setup, teardown, and guiding visitors within the school premises for Open House, Commencement, and Welcome Week (run-of-show schedules, room bookings, signage)

University of Virginia Dean's Office, Charlottesville, VA

Concierge

August 2024 - Present

- Deliver exceptional customer service and administrative support at Thornton Hall, assisting students, staff, and visitors.
- Communication Outreach Assistant for Emerging Engineers project: created scavenger hunts & week-long activities, redesigned presentation decks, submitted & tracked budget
- Create and publish a bi-weekly graduate student newsletter

UMee Startup, Remote

Development Intern

September 2024 - December 2024

- Contribute to the development of a mobile app designed to combat loneliness and foster meaningful social connections through technology.
- Developed and tested the Login screen with a focus on user-centered design and ease of use, improving onboarding clarity for first-time users.

TECHNICAL PROJECTS

Buzzfeed Style Quiz

- Created a dynamic, BuzzFeed-style quiz using HTML, CSS, and JavaScript.
- Designed a responsive and visually appealing user interface. Implemented scoring logic to determine quiz outcomes based on user inputs.
- Enhanced user engagement with progress tracking and personalized results display.

Thrive Habit-Tracker App | *React Native (Expo), TypeScript, SQLite, Figma*

- Created a branded mobile experience with custom **Sign In / Sign Up** flow and a personalized **Today dashboard** that greets the user, shows a week-strip calendar, and lists that day's habits.
- Implemented full **habit CRUD**: add/edit/delete screens let users set icons, colors, start dates, and flexible frequencies (daily / weekly / monthly / yearly) with interval control, all persisted locally in SQLite.
- Built a **Streaks screen** that computes current vs. longest streaks and visualizes progress with dynamic bars, reinforcing consistency.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

ColorStack

Secretary

September 2024 - May 2025

- Managed and maintained records of meetings and communications for the organization.
- Assisted with organizing events and facilitating communication between members and leadership.
- Supported the executive team with administrative tasks and coordination efforts.
